OUR RUGGED MOBILITY LEGACY PROTECTS YOUR FUTURE

Xplore rugged tablets are known for their long-term reliability and performance. The Xplore L10 platform takes rugged mobile computing to a whole new level. We have applied more than 20 years of rugged engineering experience to develop a platform that gives you more functional flexibility, more performance options, and more feature expansion options than other devices on the market. No matter which Xplore L10 rugged tablet configuration you choose, you will have the right tool to support the evolving mobile technology needs of your workers and your business for years to come – with options that fit your budget today.

MORE CONFIGURATION OPTIONS

XSLATE – Lightweight slate design allows for easy transport and use between the office, vehicle, and field

XPAD – Hard handle and balanced weight offer added comfort to those who walk and work all day

XBOOK – 2-in-1 flexibility makes it the ideal laptop replacement

Reduce Device / Worker Downtime

Engineered rugged from the inside-out to account for real-world hazards encountered by workers, including drops from shoulder height. Tablets last over 24 hrs on a single extended-life, hot-swappable battery.

Increase Productivity Immediately

Enjoy best-in-class computing performance with 8th generation Intel® Core™ processors and up to 600% faster download / 300% faster upload speeds with 4G LTE. Pass-through antennas ensure continuous connectivity, even in remote locations. Bright 10.1" View Anywhere™ displays boast auto-sensing glove / wet touch technology and an active digitizer option*.

Secure Your Future Today

Removable SSDs, TPM 2.0, integrated fingerprint scanner, and Smart Card / CAC reader options protect devices and data. Multiple I/O options ensure device interoperability with legacy and future IT systems.

Share Accessories, Save Money

Docks, batteries, kickstands, keyboards, and other accessories can be shared among all Xplore L10 users, no matter which device they choose. Plus, L10 accessories purchased today will remain fully compatible with future-generation L10 rugged tablets.

*Option available with View Anywhere displays only
